

```
<?php
$myVariable = "This is a variable";
$MyVariable = "This is another variable";
$my_variable = "This is yet another variable";

define("MY_CONSTANT", "This is a constant");

echo "Variable 1: $myVariable<br>";
echo "Variable 2: $MyVariable<br>";
echo "Variable 3: $my_variable<br>";
echo "Constant: " . MY_CONSTANT . "<br>";
?>
```

Output :

```
<?php
$myVariable = "This is a variable";
$MyVariable = "This is another variable";
$my_variable = "This is yet another variable";

define("MY_CONSTANT", "This is a constant");

echo "Variable 1: $myVariable<br>";
echo "Variable 2: $MyVariable<br>";
echo "Variable 3: $my_variable<br>";
echo "Constant: " . MY_CONSTANT . "<br>";
?>
```
